## Resources

<http://tinyurl.com/CLR-MTSS-WA-ASP-Feb-2019>

## Agenda

- What do we think about instruction and intervention for multilingual learners with special educational needs?
- Compare & contrast students' performance from language learner and special education perspectives
- Examine a Framework for Culturally and Linguistically Responsive Inclusive Environments for multilingual learners

## Agenda

- Understand seven integral factors as a foundation for culturally and linguistically responsive MTSS
- Apply knowledge of the seven factors to create optimal learning environments for multilingual learners

## Agenda

- Survey current research and multilingual resources to optimize use of students' home languages as resources for learning
- Incorporate culturally and linguistically responsive practices into MTSS for multilingual learners

**What do you think about instruction and intervention for dual language learners with special educational needs?**

<http://tinyurl.com/DLLsSEN-School-Psychs>

**Activity 1.1**  
The statements below represent views that some people hold about the education of DLLsSEN. Read the statements and check one of the columns to indicate how much you agree or disagree with it.  
SA = Strongly Agree A = Agree D = Disagree SD = Strongly Disagree

	SA	A	D	SD
1 It is important to start with the students' strengths in planning and implementing instruction and intervention for DLLsSEN.				
2 Once a DLL has been diagnosed with a SEN, it would be better to focus on learning one language.				
3 DLLsSEN benefit from instruction and intervention that build on their cultural backgrounds as resources.				
4 If DLLs are experiencing academic challenges, then special education is the most direct avenue to addressing their needs.				
5 Instruction and interventions developed for monolingual students are effective for DLLsSEN.				

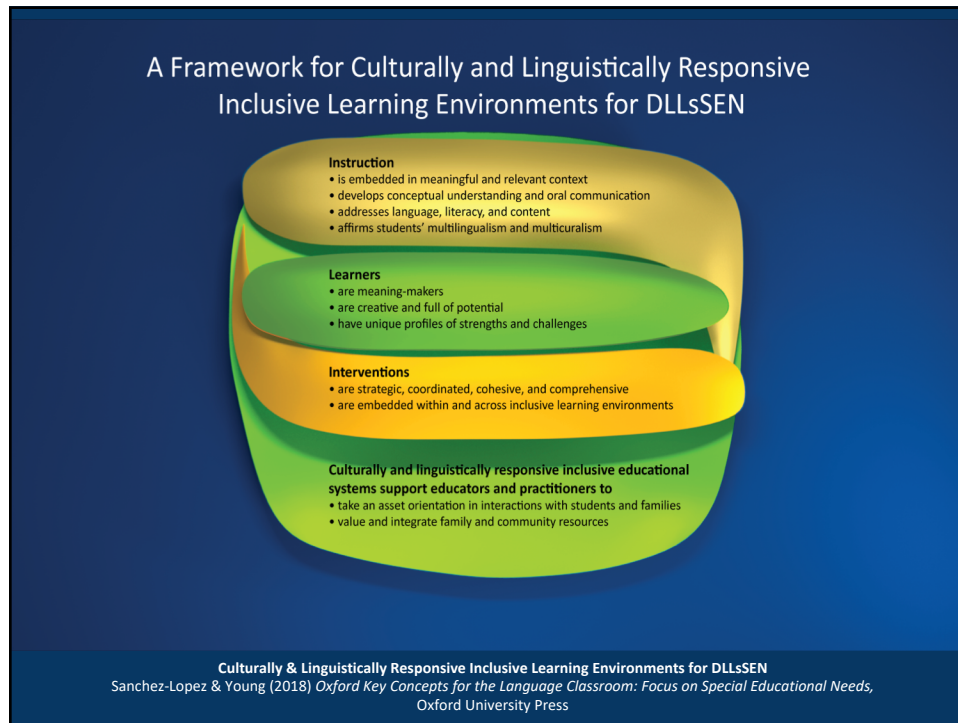

## Differing Explanations for Similar Observable Difficulties

Observable Behavior	Possible ELL Explanations (behavior observed in English)	Possible Disability Explanation (behavior observed across contexts in both languages)
Omits words or adds words to a sentence		
Has difficulty retelling the events of a story read aloud		
Becomes distracted easily		

## Framework for Culturally and Linguistically Responsive Inclusive Learning Environments

What does the research tell us?

“

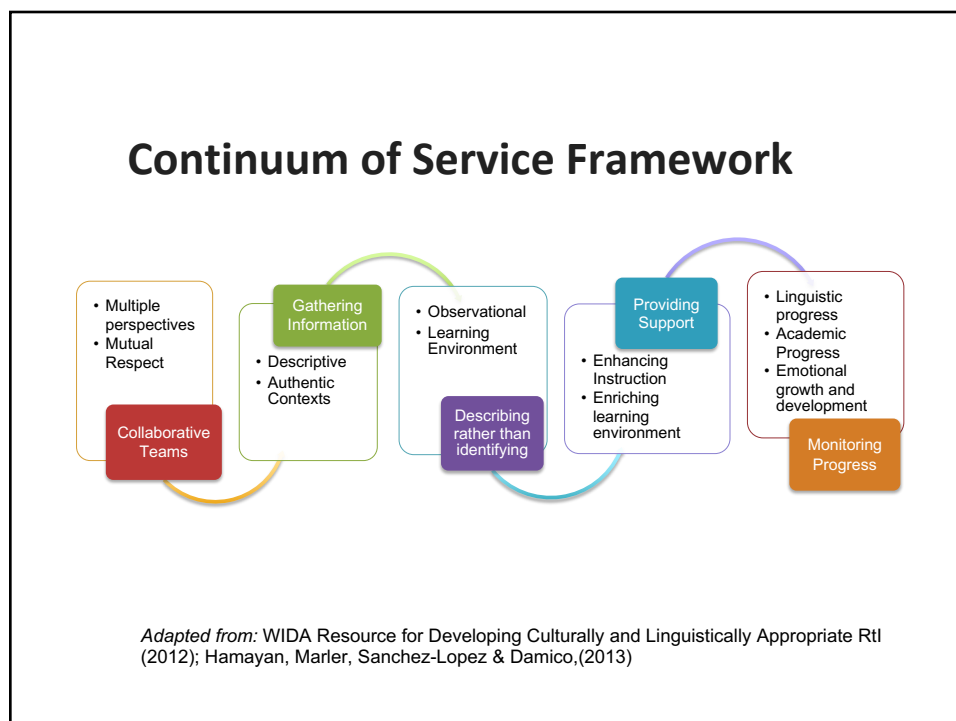

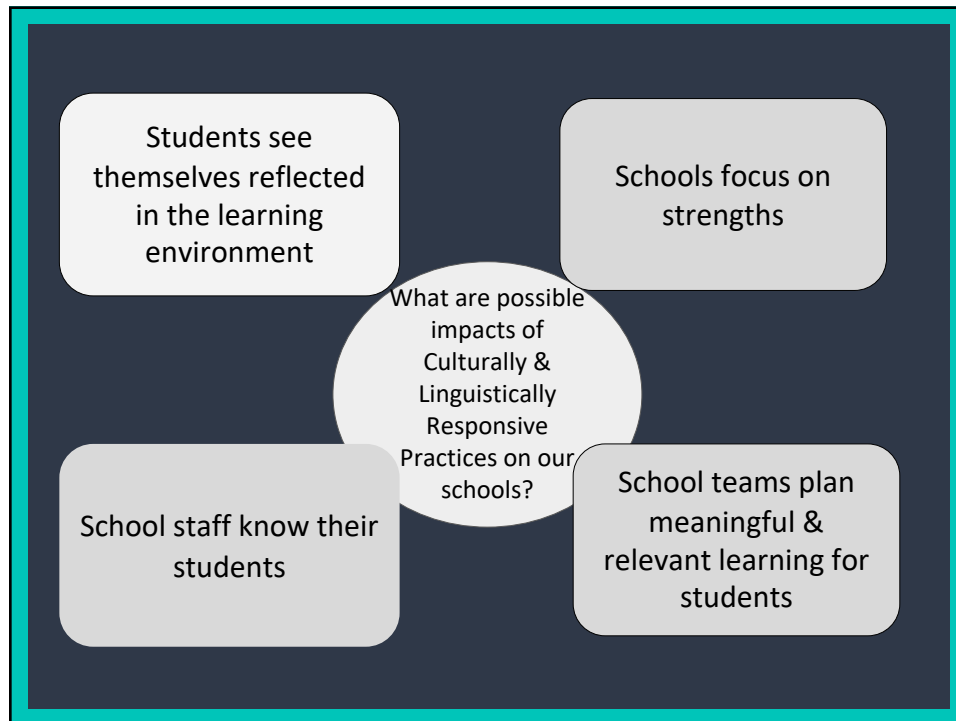

Please read through the following paragraph  
once silently.

Highlight or underline words or phrases that  
resonate with you.

Share with a small group or partner what you  
highlighted and why.

“Culturally and linguistically responsive teaching and learning is the use of cultural knowledge, prior experiences, frames of reference, and performance styles of ethnically diverse students to make learning encounters more relevant to, and effective for, them. It teaches to and through the strengths of these students. It is culturally validating and affirming. It means going to where students are culturally and linguistically with the aim of bringing them where they need to be academically.”

(Gay, 2000; Ladson-Billings, 1995; Hollie, 2011)

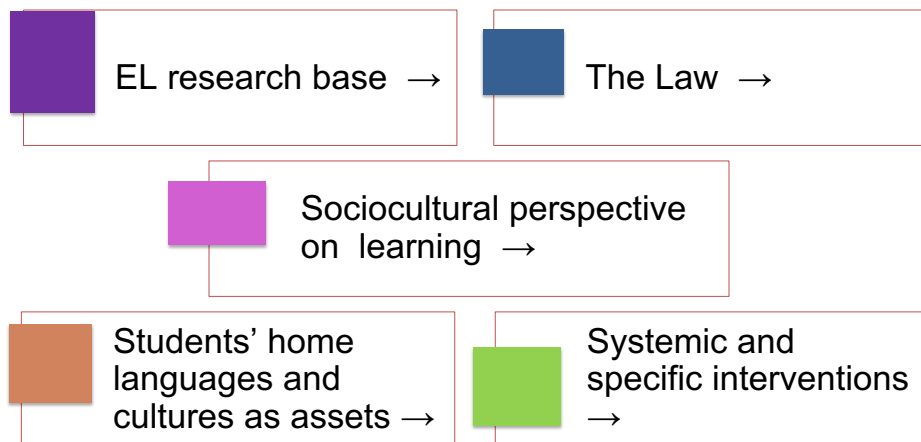

## Why we need culturally and linguistically responsive perspectives:

- *Difference (≠ Disorder) = Diversity*
- Similarity of surface behaviors
- Optimizing learning environments vs. focusing on remediating deficits
- Integrating practices vs. working in silos
- Need to reframe *ELL +/- Special Educational Needs*

## Essential Features of MTSS / RTI for ELLs:

Understand seven integral factors as a  
foundation for culturally and linguistically  
responsive MTSS

Oral Language & Literacy						
Academic Achievement and Instruction						
Cross-Cultural Considerations						

**Literacy Principle #1**  
The most important thing about

Reading and writing is *comprehension*,  
**not** just decoding letters or words  
**or**  
calling out words on a page.

(Cambourne, 1988; Garcia, 2003; Goodman, 2001; Smith, 2004)

The graphic features a green rounded rectangle on the left containing the title and subtitle. To its right, three light purple circles are arranged vertically, each connected to a line of text. The text explains that literacy is about comprehension, not just decoding or calling out words.

**Literacy Principle #2**

There is a strong connection between oral language development

and learning how to read and write.

Literacy develops in predictable stages, much as oral language does,

although with the help of instruction

(Cambourne, 1988; Garcia, 2003; Goodman, 2001; Smith, 2004)

***National Literacy Panel on Language Minority Children and Youth (2006):***

National Reading Panel (2000) key components of English reading: phonemic awareness, phonics, fluency, vocabulary & comprehension benefit language-minority students...***but are not sufficient*** for teaching to read & write proficiently in English.

***Oral language development*** in English is critical but often overlooked in ELL literacy instruction.

***Oral language development and literacy in the first language*** facilitate literacy development in English.  
(Executive Summary, pp. 3-5)

**Literacy Principle #3**

A student's native language is a resource for developing literacy in English, not a hindrance.

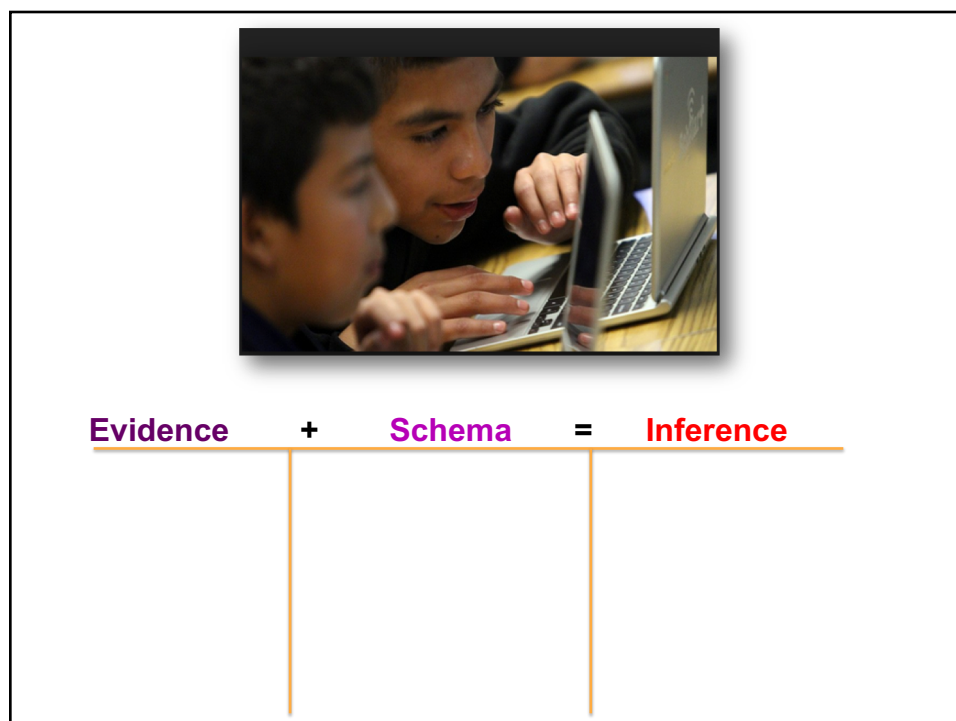

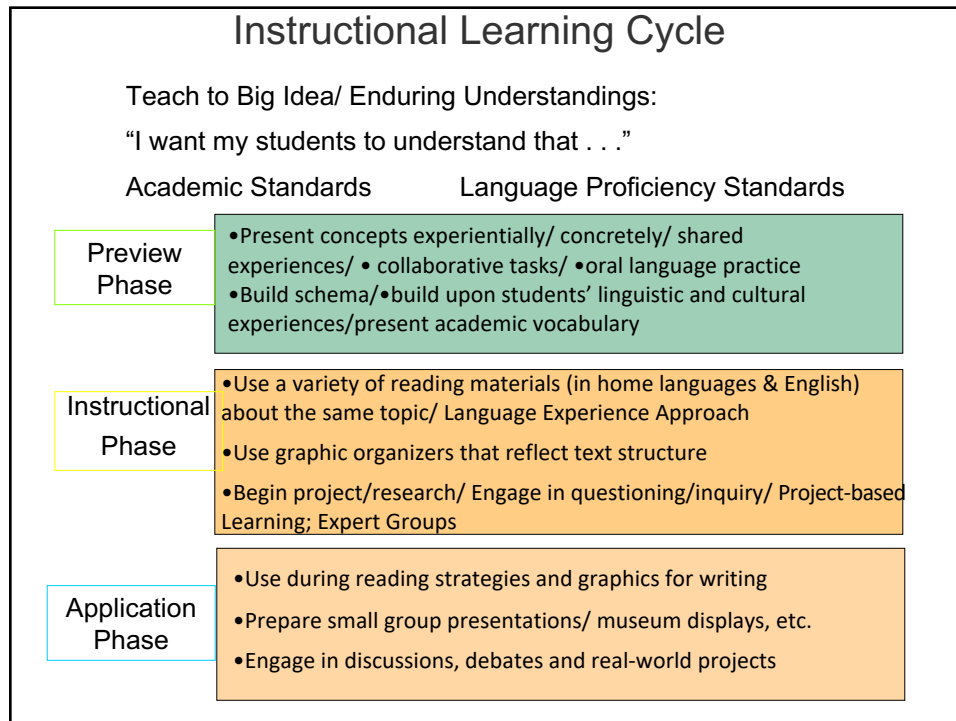

The meaning-making aspects of literacy, such as *drawing inferences*,

*comparing and contrasting* information, understanding *main ideas and details*,

and *recognizing propaganda*, transfer broadly across languages.

(Genesee, Lindholm-Leary, Saunders, et. al., 2005; Krashen, 2004)

## 6. Academic Achievement Factors

### Making an inference . . .

Evidence	+	Schema	=	Inference

**Making Inferences**

 +  = 

Evidence picture/text      Schema      Inference

---

The evidence shows \_\_\_\_\_

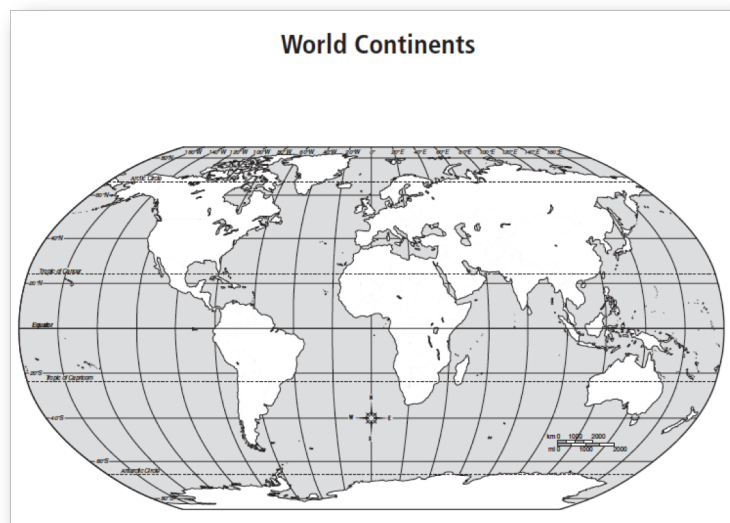

I already know \_\_\_\_\_

Therefore, I can infer \_\_\_\_\_

**break**

**Children with Disabilities are NOT Disadvantaged by Bilingualism**

**Bilingual children with Down syndrome demonstrated:**

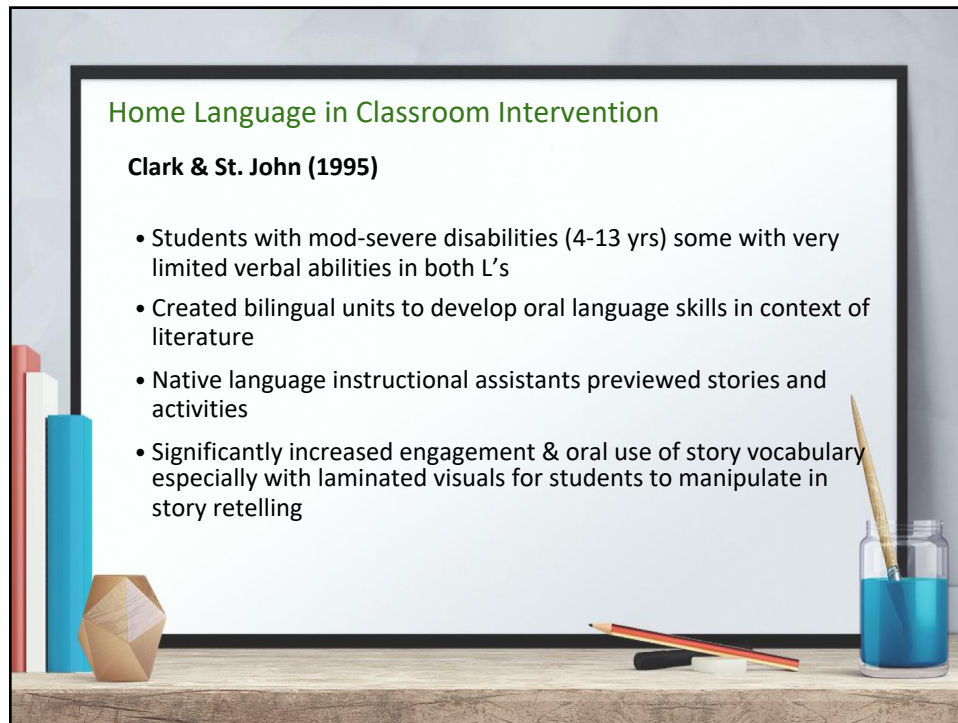

- language characteristics similar to their monolingual peers i.e., receptive vocabulary strengths and expressive grammatical difficulties
- English skills that were developing as well as their monolingual counterparts

(Kay-Raining Bird, Cleave, Trudeau, Thordardottir, Sutton & Thorpe, 2005; Feltmate & Kay-Raining Bird, 2008)

**Children with Disabilities are NOT Disadvantaged by Bilingualism**

**Bilingual children with Autism Spectrum Disorder (ASD) compared to monolingual peers demonstrated similar:**

- **vocabulary scores** (Petersen, Marinova-Todd & Mirenda, 2011)
- **early stages of language development** (Ohashi et.al., 2011)
- **social and linguistic characteristics** (Hambly & Frambone, 2012)
- **speech and language abilities** (Valicenti-McDermott, 2012)

A whiteboard with a black border is mounted on a wooden desk. The whiteboard contains the following text: "Home Language in Classroom Intervention" in green, "Clark & St. John (1995)" in black, and a bulleted list of four points. The desk is decorated with a blue pencil holder containing pencils, a wooden geometric object, and a stack of books.

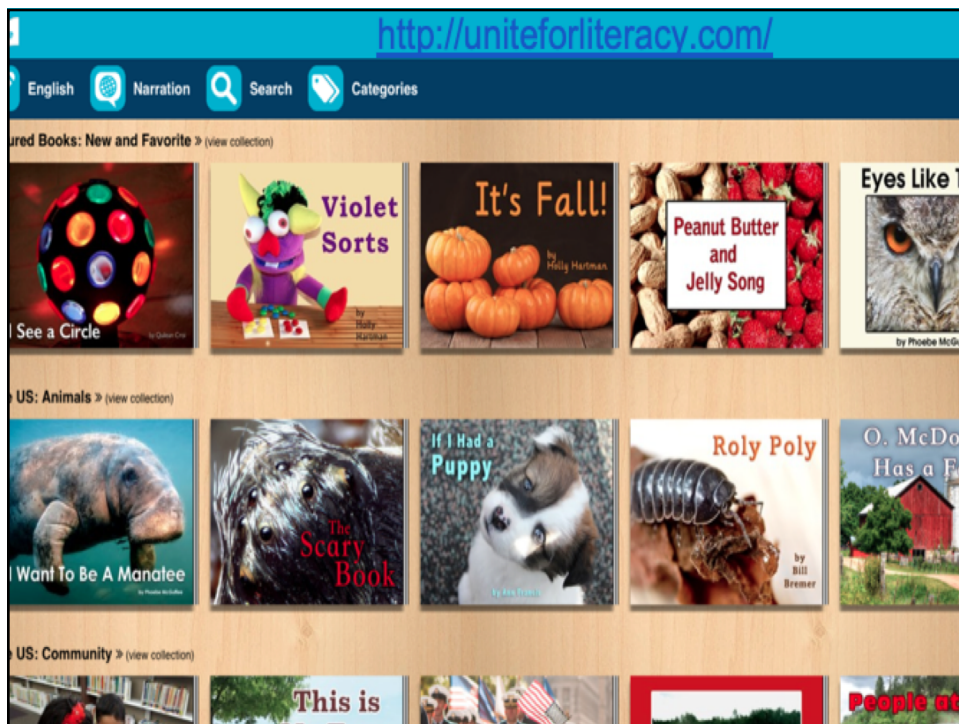

**Home Language in Classroom Intervention**

**Clark & St. John (1995)**

- Students with mod-severe disabilities (4-13 yrs) some with very limited verbal abilities in both L's
- Created bilingual units to develop oral language skills in context of literature
- Native language instructional assistants previewed stories and activities
- Significantly increased engagement & oral use of story vocabulary especially with laminated visuals for students to manipulate in story retelling

A whiteboard with a black border is mounted on a wooden desk. The whiteboard features blue line-art illustrations of a rocket, a planet with rings, and stars. Below the illustrations, the text "Multilingual Resources for Young Learners" is written in blue. The desk is decorated with a blue pencil holder containing pencils, a wooden geometric object, and a stack of books.

**Multilingual Resources for  
Young Learners**

The screenshot shows the Ryerson University MyLanguage website. The header includes the university logo, a search bar, and navigation links for 'Info for', 'Apply', 'Visit', 'Give', and 'my.ryerson'. The main content area is titled 'MyLanguage' and features a 'Brochures' tab. Below this, there's a section for 'Hold On Brochures' with a list of languages and their corresponding brochures. A small image of a brochure is also visible.

Click on the links below the image to download a print or web PDF of the "Hold On" brochure...

<https://www.ryerson.ca/mylanguage/brochures/>

The screenshot shows a brochure for the (OSLA) Reading Project. It is presented in two columns: Arabic on the left and Traditional Chinese on the right. The English text is centered at the top. The brochure provides information on why reading is important, what to read, when to read, and how to read. It also includes a section on 'What to read?' and 'How to read?' in both languages.

**(OSLA) Reading Project**

**القراءة تسمى قدرات اللغة القوية**  
(مفاتيح النجاح في مراحل الحضانة والابتدائية)  
(Arabic)

**أهمية القراءة**

- قراءة قصص الأطفال مع طفلك يعني قضاء بعض الوقت معه
- قراءة القصص على طفلك تساعد على تنمية قدراته اللغوية. وتساعد القراءة عليه على تعلم لغة أخرى
- القراءة خلال السنوات الأولى من عمر الطفل يساهم في تعلمه القراءة
- الطفل الذي يتلقى القراءة يتعلم على نحو أفضل في المدرسة
- لغة الطفل تتطور بشكل أسرع
- هو الكتاب الذي يتعلم على نحو أفضل في المدرسة
- الذي يتعلم القراءة هو عندما تقرأ له في وقت فراغه، مثل قبل النوم
- أفضل مكان للقراءة هو المكان الذي تقرأه معه
- اقرأ له في الفراغ
- اقرأ له

**Reading Develops Language Skills**  
(recommended for pre-school - primary aged children)  
(English)

**Why read:**

- Sharing a book means spending time together
- Reading a story teaches good language skills. Use the language you know best.
- Reading aloud to a child at an early age helps the child learn to read
- Children who are good readers do better at school

**What to read:**

- Choose books that have colourful and interesting pictures
- Choose books about people and activities that your child likes
- Choose books about everyday events like going shopping or getting ready for bed
- Let your child read to you
- Your child going to school
- Read stories
- Talk about the story

**When to read:**

- Read to your child
- Find a time
- Choose a book

**How to read:**

- Read slowly

**讀書樂 - 閱讀能增進語文能力**  
(適合學前及初小年齡兒童)  
(Traditional Chinese)

**為甚麼要閱讀?**

- 一起閱讀，可以增加親子的時間。
- 閱讀故事書，可以增強語文能力。用你最流利的語言去讀。
- 對幼童講故事書，可助孩子學習閱讀。
- 閱讀能力強的孩子，在學校會有更優異的成績。

**讀些甚麼?**

- 選擇有顏色和插圖有趣的故事書。
- 選擇你子女感到有興趣的人物及活動的故事書。
- 選擇和日常生活經驗有關的故事書，例如：逛商場或晚上準備就緒
- 讓你的子女挑選故事書，即使重覆讀一本書多次亦無妨。
- 你的子女會喜歡重覆讀一本書多次，因為可以更容易推測故事的內容。
- 可讀有關中國文化的故事書。
- 可講述中國民間故事。
